Snowmass features biking trails for all abilities, from the Snowmass Loop, which consists of 28 miles and 4,408 total feet of vertical singletrack combining over 10 different trails; to the 3.7 mile Tom Blake trail, a local's favorite singletrack ride/hiking trail. Guests looking to connect Snowmass to nearby Aspen need look no further than the Government Trail, which winds 6.6 miles from Snowmass to Aspen through evergreen stands, aspen groves, gilded meadows, technical rock sections and multiple streams on its way to Buttermilk Ski Area, and eventually, Maroon Creek bridge. The "Reverse Government", from Aspen to Snowmass is also a popular summer ride.

The Snowmass Bike Park, located on Snowmass Ski Area, is open daily for guests to explore, complete with beginner, intermediate, and expert trails. From the top of the Elk Camp Chairlift, across Snowmass Ski Area, and down to Snowmass Village, the Snowmass Bike Park offers something for every level of downhill mountain bike rider. The Snowmass Bike Park features more than 25 miles of purpose-built, diverse gravity trails ranging from beginner-friendly and flowing singletrack to dynamic and challenging technical descents—not to mention sweeping mountain views and plenty of options in Snowmass for post-ride refreshments. This summer season marks the completion of the park's latest trail system buildout project that began in 2017. New this summer, the Squeezy trail (Advanced) is the final trail in the Easy Peasy, Lemon, and Squeezy trail series, a group of short trails which progress from Beginner to Intermediate to Advanced and focus on skill acquisition and refinement for new bikers. Open daily from 10:00am – 5:00pm, the Snowmass Bike Park is also open until dusk on Tuesdays in late June, July, and August for extended play. On these Tuesdays, a Late Arrival Ticket begins at 2:00pm. For more information, please click [here](#).
